

Social distancing is one of the new rules of Preparedness during COVID-19. When out in public, it is important to stay 6 feet away from people and animals you don't live with.

The Centers for Disease Control and Prevention advises to "stay at least 6 feet from other people, do not gather in groups, and stay out of crowded places and avoid mass gatherings"

Six feet sometimes may be hard to guess so here is a trick to remember! For this activity, you will need paper, a pencil, scissors, tape, and a 1-dollar bill.

Step 1: Borrow a dollar bill from an adult.

Step 2: Find paper and trace the dollar bill 12 times. A dollar bill is 6 inches long, so 12 dollars = 6 feet!

Step 3: Cut out all your traced shapes, and tape them together.

Step 4: Decorate it with all the new things to remember, like hand washing and wearing masks! Use crayons, markers, colored pencils, paint, glitter, or stickers to make your new tool unique!

You can use this to practice social distancing, and you can bring it with you when you go out to help you remember this rule!

Want to show off your awesome new measuring tool? Take a picture of your creation, post it on social media, and use the hashtag #Luckysactivities!
